

Information Disclosure Statement

The information disclosure statement filed 11/24/08 fails to comply with 37 CFR 1.98(a)(3) because it does not include a concise explanation of the relevance, as it is presently understood by the individual designated in 37 CFR 1.56(c) most knowledgeable about the content of the information, of each patent listed that is not in the English language. Specifically, the listed JP 50-61375 document lacks translation or statement of relevancy. It is noted, that while the applicants certified that the reference was cited in a communication from a foreign patent office in a counterpart application, neither the communication itself or any other statement of relevancy is provided with the IDS. Thus, the reference has been placed in the application file, but the information referred to therein has not been considered.
